All advertisements to be changed
must reach the "Review" office not
later than Tuesday morning.

Service will be held at St. Michael's
Church at 11 a.m.

Mrs. McWilliams and her son return-
ed from Medicine Hat on Saturday.

Bert Hanson leaves on Tuesday to
take up farming 150 miles north of
town. He is a returned soldier and
we wish him success in his new career.

The little daughter of Mr. and Mrs.
Frank Reams is sick.

Mrs. Henderson returned from Leth-
bridge on Saturday.

From March 21st. the time of the
arrival of trains at Bow Island have
changed one hour earlier, the C.P.R.
having adopted fast time.

Mr. Bergeron's son who lately re-
turned from overseas, and has been
in Calgary for about two weeks, has
returned to Bow Island, and is now
visiting Madam Anson's home south
east of town.

Mrs. Buchling of Winnifred was a
visitor to town on Tuesday.

We see the farmers of the surround-
ing districts, are busy overhauling
their machinery, also having out their
machinery in preparation for spring
work.

The Grand Concert which took
place last Thursday night in the Odd
fellows' Hall, in aid of the funds for the
Bow Island Citizens' Band, was a
great success, over \$200.00 being re-
ceived after all expenses were paid. Mr.
Dick MacFarley who held the ticket
No. 50 was declared the winner of the
\$500 Baby Bond.

Mr. R. H. Rodgers is leaving for
Calgary next Saturday the 5th of
April. Mr. Rodgers represents the S.
M. Playford Sales Co. of Calgary, and
he says that lately he has held sales
in at least twelve different towns and
finds that Bow Island has been the
most successful sale of them all.

Do not forget to put your clock on
one hour ahead, if you have to catch
a train, as they are now all one
hour earlier.

Mrs. Ward Foster returned last
week from Medicine Hat Hospital
where she underwent a very serious
operation, and thirty gall stones were
removed. We are glad to report that
she is slowly mending and that her
conditions are favourable.

Mr. E. Harding from Saskatchewan
is the new Secretary Treasurer of
Bow Island Municipal District No. 64
he is a gentleman who is well versed in
Municipal affairs having previously
held office in Municipalities for
several years. This combined
with his courtesy and aff-
able manners make him a citizen to
be desired and we all extend to him
our good wishes and the right hand
of friendship. Mrs. Harding is at present
residing in Medicine Hat and will
join her husband as soon as house ar-
rangements are fixed up.

Mrs. Flammie and Mrs. Potter were
visitors to town on Saturday last,
attending the U.F.A. meeting.

The farmer out south who bought
the Ford car last week, went for a
trip on Sunday last. The latest report
is that they did not get home that
night. We wonder what happened
to the car? Would a horse and buggy
have been safer and swifter?

Miss Lucille McLaren was a visitor
to Bow Island for last week-end.

Mrs. C. Boien has had Miss Stark
from down east visiting her for some
time. She likes this part of the
country well, but intends to go
further west later on.

Miss Irene Tippett entertained some
friends, in honor of her birthday, last
Friday amongst the guests were
Arthur and Ernest Vasselin, Mr. and
Mrs. Whitfield and family, and
others. A delicious lunch was served
and all spent a very enjoyable time.

Mr. Robert Sallsbury and family
Sundayed with J. R. Peairs and
family.

The many friends of Jolly Olson are
glad to see him again, after his
attack of influenza.

The Good Cheer School Board met
at the home of the secretary-treasurer
on Friday evening.

J. P. Peairs and wife, Pete Negleski
and Hansell Evans, breakfasted with
Mr. and Mrs. Lindquist on Saturday
morning after the ball, and all can
testify to the proficiency of Mr.
Lindquist in the culinary art.

Tommy Spry, who has been work-
ing at the Salsbury coal mine this
winter, is moving back to his farm
this week and getting ready to put in
his crop.

Quite a number were disappointed
that intended to take in the lecture
and chicken supper at Winnifred on
Monday night, it being called off on
account of the "flu" ban.

Mr. Archie Hoaglin captured a
coyote near the Good Cheer School
house last Wednesday with his
hounds. We are certainly glad to see
these rogues hunted down as they are
a great annoyance to the farmer.

Mr. O. A. Lindquist was a business
visitor to Lethbridge the first of the
week.

Gordon Warren and John Ross
visited Bow Island last Friday and
brought home a load of seed corn.

Mr. Lars Helund is reported to be
on the sick list.

The social dance given at River
school was well attended. Besides
the dances the crowd enjoyed a short
programme given by the school
children. The school is taught by
Miss Chisholm and the selections
rendered, not only speak well for the
scholars but the teacher also. Mr. P.
O. Warner treated the audience to
several comic "darker" songs, which
showed that he had visited the land
of cotton. Mr. Chisholm was present
and had with him a sworn financial
statement of the funds disbursed in
his municipal district, which he was
called upon to read. He at first de-
clined, but was afterwards prevailed
upon to read it. The stand Mr. Chisholm
takes in the matter, is to deal
out municipal affairs straight, and the
applause he received, and the votes he
obtained at the recent election show
the high esteem and regard with
which he is held in his district.

Mr. Jordan Helland and family
visited at Mr. Currie's on Monday
evening.

Mr. Geo. Scott and family spent
Sunday at the home of Mr. William
Craig.

Mrs. Hubba and son Otto visited at
the home of John Olechko Sunday.

The small boy is after the gophers
these days. We understand there is
a premium offered for the one that
brings in the most tails. The competi-
tion will work havoc with "Mr.
Gopher."

Mr. Godfrey Johnson and Mr. Pete
Peterson were putting in some repairs
at the school house last Monday and
making things handier for the
teacher.

The Rosemount School District
seems to be in hard luck getting a
teacher. They have not the train
four times, each time expecting a
different teacher, but none slighted
from the train.

Mr. Jacobson shipped Mr. Anson's
furniture to him at Fernie, where he
last work is the saloon, and expects
to reside there for a time.

DIRECTORS' REPORT ON DAVIDSON STRIKE

Directors of the Davidson Gold Mines on their return from the property Monday night spoke with enthusiasm concerning the new ore body struck up last week at the 500-foot level. The find has established the fact that the property is rich at depth. One Director said:

"We found that a cut being driven across the ore body had penetrated 30 feet without having reached the foot wall. It had passed through a vein of uniform values which was impregnated with free gold. The average values over this width of 30 feet will run high as compared with results of the more irregularly dipping 'Porcupine' veins. The vein is estimated to be 40 feet wide, and the assay results were highly satisfactory."

The above statement is sufficient to indicate to the reader the immense possibilities of the Davidson Mine. The big vein is rapidly being developed up, and we think that announcements of first importance will follow from time to time.

EDITORIAL

National Getting Together

Nature divided the Dominion of Canada into two main parts, the dividing line being that stretch of barren, rocky country north of Lake Superior which separates the fertile farms and thriving cities of the East from the great expanse of prairie in the West. One of the conditions upon which British Columbia agreed to enter confederation was that this gap between East and West should be bridged by the construction of the C.P.R., and in the half century which has passed it has been the aim of Canadian statesmen, and the national aspiration of the Canadian people, that a strong united Canadian nation should be built up on this northern half of the continent.

In many ways that aim has been realized. A real Canadian sentiment has been developed; an equally strong attachment to the British crown exists east and west; the development of one section has re-acted beneficially on the other section. There is today a pride in Canada, and a confidence in its future, common to all parts of the Dominion.

Nevertheless it does not require a man of unusual powers of vision, or, super-intelligence, to realize that a sharp difference of opinion exists between the East and West on economic grounds, and to some considerable extent in the radicalness of their political views. And it is equally evident that these differences of opinion are becoming more pronounced, and the resulting division between the two sections of the Dominion is widening.

It is not the intention of this article to discuss the causes of this unfortunate difference of opinion, nor the merits of the questions in regard to which East and West hold antagonistic views and exhibit such a lack of sympathy the one with the other. It may, however, be necessary to mention one or two of these issues in order to bring before our readers the point of this and possibly subsequent articles.

Sold at the same fair
price as before the war.

INSTANT POSTUM

Its fine flavor appeals to
tea and coffee drinkers.

A rich, delightful drink that
provides real economy.

Not a Bit of Waste

Mountain Belches Smoke

London. — Mount Elbrus, in the Caucasus, has been discharging smoke for several days, a Russian wireless message from Moscow reports Rostov newspapers as saying. Blocks of ice, which have been above the snow line of the mountain for hundreds of years, it is added, are being carried to the foot of the mountain in torrents. Mount Elbrus is 18,000 feet high and the highest mountain of the Caucasus. It was supposed to have been an extinct volcano.

Of which we do not think can be successfully changed.

In subsequent articles, consideration will be devoted, in a strictly impartial and thoughtful way, to some aspects of this East vs. West Canadian problem and how to bring about a better national understanding.

British Aid Sympathizers

London.—Winston Spencer Churchill, secretary of state for war, said in the house of commons that the British and Lithuanians had been promised British protection and aid, and that the Lithuanians had been partly supplied with British arms. There was a considerable German force in that region moving towards Windau and possibly Riga. It was increasing German influence, but the other hand was saving the district from appalling misery and Bolshevik ravages, and these operations which were performed in useful services, were not being discouraged.

"What happens to animals after death is a profound question. Do we know what becomes of cats? They become violin strings and genuine sable furs. But what happens to dogs is the worst."

Attacked by Asthma. The first attack of asthma is a suffocation, which hour by hour becomes more desperate and hopeless. To reach the relief afforded by Dr. J. C. Kellogg's Asthma Remedy, which is quickly apparent and soon the severe attack is over, and the asthmatic who has found out the dependability of this sterling remedy will be without it. It is so.

Hay Transported Free

Regina, Sask. — The Saskatchewan government has announced that it permits so far for free transportation of 4,100 carloads, or approximately 40,000 tons, of hay from northern points of the province to southern points, and the movement has been active the past few weeks.

A safe and sure medicine for a child troubled with worms is Mother Graves' Worm Extract.

British Columbia's Industries

The annual report of the manufacturers' association of British Columbia to the provincial value of industry for 1918 is the largest ever. It is approximately \$200,000,000 and employment was given in connection with this industry to 86,000 persons. This industry classifies under the basic and general, including shipbuilding.

A Friend of the Policeman

Continually on their feet, the "Peders" are invariably troubled with constipation and for long, because they know of a quick cure, Pajman's Corn Extract, try "Pajman's," 25c at all dealers.

Manitoba Seed in France

Success of Western Canadian Seed

When France was at the height of her prosperity, she has been the introduction of the cultivation of spring wheat from Western Canada in European countries. In France far-reaching results are expected from the introduction of this wheat into that country.

The report of an investigation conducted by M. Marlin, director of the agricultural department of Indre-et-Loire, states: In the least successful experiments Manitoba wheat gave 2 to 11.92 cwt. per acre. Everywhere else the yield varied from 9.54 to 16.72 cwt. per acre. The "best" crop was an exaggeration by 11.14 per cent per acre. These figures are all the more remarkable because the average yield of winter wheat in France is 15. There is no doubt that 1917 was a very favorable year for wheat-growing in that district. May and June were wet and there was no excessive heat in July. In spite of all disadvantages, M. Marlin considers Manitoba wheat excellent for France. He writes: "Thanks to this new variety it will be possible to sow wheat in spring which could not be sown in autumn."

Wild Weather Kills Fish Trade
Fort William, Ont. — It is estimated that wholesale fish dealers at the head of the lakes will lose thousands of dollars in fish business this winter, owing to the mild weather making the spring last week but they have been refused there on account of salt weather.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at the corns until they are in a momentary agony. The corn grows hard. This suicidal habit may cause to kick and women are forced to stop it.

A few drops of a drug called freestone directly to the corns cause corns to give quick relief and soon the entire corn is removed. This is a sure cure. Give the drug store man for a quarter of an ounce. It is sufficient to remove every hard or soft corn or callus from the foot.

Equipment for North Country
Edmonton, Alta. — Two carloads of equipment have arrived here from the coast on their way to some point of destination in the north country, where new development enterprises will be set going during the coming season. The shipment includes a large-bore and drilling, a number of tools and a supply of food, etc., etc., etc.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A justly famous oil of the essential oils compose the famous Dr. Thomas' Oil. It is a pure oil, and it is without it, so that its effects are lasting, and it is not a drug of the kind.

Canadian Indians Confer

Object to Turning Over Lands to Returned Soldiers

Sardis, B. C. — Indians from all over the province held a meeting at Cheechan, near here, recently, to discuss the proposal to the provincial government to place frequently that certain Indian reserves should be turned over to the returned soldiers. Speaker of the meeting was a prominent Indian, who said that the suggestion that their land should be taken away from them. The land belongs to them, and in the war they called them to fight for the British flag. If power were given them, they might be willing to sell some of their holdings. They appointed Chief Billy Sappas and George Matheson to go to Ottawa and say their side of the question before the federal authorities.

Minard's Liniment for sale every where.

Huge British Order for B.C. Timber
Vancouver, B. C. — An order for seventy million feet of lumber has been placed with the British Columbia mills by the British timber contractors in England, according to an announcement by the provincial minister of lands.

You're Bilious! Take Cascarets

Pleasant relief for liver and bowels, and cost 10c a box—no gripe!

Feel great! Be efficient! Clean your torpid liver and sluggish bowels. Get your bowels clean and do not gripe or sicken. Give your liver a good dose of Cascarets. It is a pleasant, reliable, and safe remedy for headaches, biliousness, pimples, dizziness, sleeplessness, bad breath, stomach sourness, gas, etc. Cascarets are sold in 10-cent boxes. Buy a box and get a reliable, safe, and pleasant remedy for biliousness—tastes like candy but never fails. Cascarets work while you sleep.

Chinese Meetings Forbidden

Lethbridge, Alta. — In connection with the arrest and trial of Chinese conspirators on the Pacific coast, Chief Hardy states that shortly after the war broke out the Chinese national league at that city, which had numbers of about 100 members, was training a squad of about 40 young men in their club rooms. The impression gained only their leaders was that they were preparing to fight for the allies if China declared war on Germany. Later the chief of police decided that their training was a menace and stopped it, and later still meetings of Chinese in the club rooms were banned.

Memorial at Ypres

Canadian Buildings Will Include Museum and Library
London. — An officer of the Canadian headquarters staff, interviewed by a local correspondent, said that the Canadian memorial buildings at Ypres would include a museum of objects connected with the campaign of Ypres, also a library of everything published concerning the battle of the salient. Models of the salient, photographs and official reports and a roster of all the Canadian dead would also be included.

Such a building would be to the Canadian what Shakespeare's house is to visitors to Stratford-on-Avon, the officer said. "When the transfer is effected, it is proposed to have the ground into a veritable garden of living Canada amid the ruins by planting maple trees and Canadian shrubs and flowers."

What more, I think, be a good title for what we propose to effect here."

Minard's Liniment Cures Dandruff.

Annual Report

Best in History

Life Provides Ample Margin of Safety

Although the past year was a trying one to insurance companies, owing to war losses and the influence of inflation, the 48th annual report of the Sun Life Assurance Company is the best ever issued. The figures show that the big Montreal corporation maintained its position as the largest of our Canadian life assurance companies, having a gain of nearly \$1,000,000 during the year. The amount of new policies issued exceeded the \$30,000,000 mark, the exact figures being \$31,951,000.

Total income received during the year was in excess of \$21,651,000, while total assets now amount to \$76,500,000, a gain of nearly seven and a half million dollars. The amount paid to policy holders and their beneficiaries last year reached the large sum of \$1,000,000. The Sun's large surplus shows its financial position is unchallenged. Another new high record was made in regard to income, with \$1,651,000 received, a gain of over \$200,000 over the figures for the previous year.

The Sun Life not only did its bit through the protection it afforded but also used its investments funds to purchase government bonds instead of ordinary securities, thereby assisting materially in the winning of the war.

Although the showings made by the Sun Life is a most gratifying one, and policy holders and shareholders have every reason to feel gratified at the record made in 1918. The company is now settled in its new home, whose unequalled facilities enable the officers to do still more effective work.

Recent Losses of Secrets of Trade
The Germans, who stole from many industrial secrets in Belgium and northern France, are complaining bitterly of the curiosity manifested by the allies in the manufacture of dyes and that the Americans, in addition to making a cap study of German processes, are trying to hire the best German technicians by offering high salaries.

Swiss Current citizens have submitted \$50,000 as a loan for school for the German children of the kind, and was raised in a two-week campaign.

Japan plans to install an exchange that will receive wireless telephone calls from ships at sea and connect the callers with land lines.

A FREE BOX

STOMACH AND BOWEL REMEDY

Want Interurban Highway? The board of trade is requesting the provincial department of highways to build an interurban highway from that city to the Manitoba boundary via, Viscount, Langton, Wrayford, Foam Lake, and other towns on the railway line.

SPRING WEATHER HARD ON BABY

The Canadian spring weather—one day mild and bright; the next, rain and blizzard—is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is stifling and stuffy. One tablet should be given. They regulate the stomach and bowels, prevent or cure colic, or any other of the many ailments of childhood. The tablets are sold by medicine dealers by mail at 25c each. Write to The Dr. Williams' Medicine Co., Brockville, Ont.

Demand for Farm Labor

Moose Jaw, Sask. — There is heavy demand for farm labor, according to E. M. Hagen, of the government employment bureau. City work is very quiet as yet, but there is in the neighborhood of 100 unfilled positions available. Wages are ranging around 65c per month for the season.

Piles Cured in 6 to 14 Days
Drops relieve itching and pain. No surgery. No pain. No cure. Write to Dr. Williams' Medicine Co., Brockville, Ont.

The western Canadian Farmers' Association, with head office at Moose Jaw, has been established with F. M. Logan, of Regina, president, and J. A. Cudger, of Moose Jaw, secretary.

Pogrom is a Russian name for an organized riot. In Russia it is a local disturbance, but in the United States it is a general disturbance of the central government.

CHILDREN NEED HELP

Spanking doesn't cure bad behavior—the trouble is due to weakness of the muscles. Dr. Williams' Pink Pills for Pale People will build up the child's system, and a healthy child will be found helpful. Send no money, but write me. Today, my treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box Windsor, Ont.

Racial Question and League of Nations

Paris. — William Hughes, premier of Australia, said that the statement to the Associated Press that he was inalterably opposed to any proposed racial equality amendment to the covenant of the league of nations or to any form of it, however mild in recognizing that principle.

The American amendment concerning the Munro Doctrine and the Japanese racial amendments were not included in the covenant of the league of nations as set out in the drafting committee. The amendments may be offered later at a plenary session of the peace council or before the council of ten.

The Japanese delegation to the peace conference continued to press for an amendment to the covenant of the league which would go as far as the conference was willing to concede toward the promulgation of the principle of the equality of races. The original Japanese proposal, which met with speedy rejection, has been modified by them several times until as it stands today, it calls for "recognition of the equality of nations and just treatment of all their subjects."

It was generally understood that several of the leading delegations, including the United States delegation, the majority of the British, were inclined to believe there was nothing objectionable to an amendment thus framed.

"Australia," said Premier Hughes, "cannot accept this proposal which strikes at the very root of the policy which we have maintained so long, which is vital to our existence and which we have guarded as zealously as has America her Monroe Doctrine."

"I am anxious to avoid anything likely to hurt the susceptibilities of the people of other nations, but on this point, since we cannot give way, it is best that I should speak plainly. We cannot agree to the insertion of any words in the covenant which would mean a treaty of peace, that would imply or even question our sovereign rights in regard to any and every aspect of this question."

"One of the principles of the league is that there shall be no interference in the international affairs of any nation. No nation will surrender its sovereignty in matters essential to its welfare to enter the league."

"I cannot but regard the proposed amendment as an effort to establish a position in which ultimately some nations would by their internal policy challenged by the league at the instigation of one of its members. The amendment, no matter how innocuous it may seem in form, is certainly aimed at giving the league control of questions relating to immigration, naturalization and matters which can not be surrendered by any state without such impairment of its sovereignty as to make it, in effect, a subject state."

"If the league is able to compel a state to amend its immigration, naturalization and franchise laws, there remains to the state only the shadow of sovereignty. The states have no such. No free nation could agree to dictation in such a matter from the league of nations. Intimate problems belong to and must continue to belong to the control of the individual nation."

London. — Replying to Brigadier General Croft in the house of commons, Right Hon. Andrew Bonar Law said that no agreement will be entered into at Paris which would interfere with the full control of the United Kingdom or the dominion over their own customs duties.

Paving the Way For Permanent Peace

London. — The Paris correspondent of the Pall Mall Gazette says with high authority that "in order to avoid perils which would inevitably arise if preliminary peace terms are not drafted until such time as the various commissions shall have finished their labors, and have presented their respective reports, the representatives of the great powers have drawn up certain proposals which seem ample to constitute the basis of the first treaty, or one analogous to that signed at Versailles in 1917."

The correspondent adds that these proposals are under the consideration of the "inner council" of four. The members Lloyd George, Clemenceau, Orlando and President Wilson, which has temporarily superseded the council of ten, and that this arrangement will greatly expedite decisions.

"A final settlement will not be a

Defeat Daylight Saving Bill

Resolution Defeated in Commons by a Vote of 105 to 80

Ottawa. — A resolution in favor of the enactment of the daylight saving bill this year was defeated in the commons, the vote against it being 105 to 80. The resolution was moved by Major R. C. Cooper, Vancouver South, a Unionist member, and seconded by Hon. Rodolphe Lemieux.

The debate occupied the entire night and it was evident from the beginning, that the opponents of the resolution were in the majority. The rural representatives of Ontario and the prairie provinces were practically a unit in their opposition, while the urban representatives of the east, along with practically a solid British Columbia and a majority of the Quebec members, both rural and urban, favored the re-enactment of the legislation of last year. The maritime province vote was split. Only seven members from Ontario favored daylight saving.

Huns Held Danish Residents

Paris. — Germany is detaining Danish residents of Schleswig who decide to return home after having been released from Russian prisons, according to advice reaching the French foreign office. These men were among Germans taken prisoner by the Russians during the war and who, after being let go in Russia, at long last returned to Schleswig. They are, however, it is declared, being imprisoned in Germany and denied permission to go home.

ALL CHILDREN LOVE "SYRUP OF FIGS" FOR LIVER AND BOWELS

Give it when feverish, cross, bilious, for bad breath or sour stomach. Look at the tongue. Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has a stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour little gently moves out. Its little bowels without griping and you have a well, playful child again.

You needn't cross stick children to take this harmless "Fruit Laxative." It has no harsh, irritating taste, and it always makes them feel splendid.

"California Syrup of Figs," which has directions for babies, children of all ages and grown-ups, is sold in the bottle. Beware of counterfeits sold here. To get the genuine, ask the druggist, ask to see that it is made by "California Fig Syrup Company." Resist any other kind with contempt.

Weather Supplied

Montreal. — The Montreal Wireless company has completed arrangements for supplying airplanes to aviators who may attempt to cross the Atlantic.

A complete series of bulletins about weather conditions over the area to be traversed will be compiled from advices to ships at sea and will be sent out from the company's Glace Bay station and picked up by the aviators.

British Strikers Resume Work

Railway Strike Resolution Was Rescinded and Miners Out are Returning

London. — The delegates to the conference of the National Union of Railwaymen have decided to accept the offer of the government for the settlement of their demands.

J. H. Thomas, general secretary of the union, said that the settlement was made subject to satisfaction being obtained on some points yet outstanding. The strike resolution was rescinded by the conference.

Thirty thousand South Wales miners have resumed work and the remainder of the strikers will fall in line.

Dominion Troops Parade in London

London. — It is understood that Lord Milner, British secretary for the colonies, is giving his personal attention to the question of the ceremonial parade through London by the Dominion troops before their departure for home.

Many newspapers here are constantly expressing regret that the overseas soldiers are being allowed to depart practically without a send-off.

Hun Liners Arrive in England

Leviathans of Atlantic Now Being Handed Over in Obedience to Allied Terms

Copenhagen. — The delivery of German merchant ships to the allies continues, dispatches received here from Berlin says. Various vessels of the Hansa line sailed from Bremen and the North German Lloyd liners Zeppelin, 15,000 tons, Waldeck, 6,512 tons, and Prinz Friedrich Wilhelm, 17,000 tons, sailed recently and were to be followed by the Meiningen. The North German Lloyd steamers Einar Lohse, 9,600 tons; Frankfurt, 7,600 tons; Altenburg, 7,000 tons and the new steamer Meissen, were to sail soon.

Other steamers of the North German Lloyd allotted to the allies are also preparing to sail soon.

Keep away from the flame of the calls if you don't want your wings singed. It is a proverb as old as the hills. So old we have almost forgotten to apply it to ourselves. In every community men and women are initiating the moths. How many times have we been singed by the fascination of that long distance "bargain"? And how many times have we come back, and back again, to the flame? How much money is lost each year to this community by this same singeing process. The flame is the candle mounts in life. The moth is drawn closer and closer to the flame. It is our business to put that flame out. Wanted—A few men and women in our community to apply the snuffer.

Opposed to Fixed Prices

Views of Hon. Cramer and the Government seem to harmonize

Ottawa. — Hon. Mr. Cramer, answering W. D. Cowan, of Regina, in the agricultural committee, said that in opposing a fixed price for wheat, he spoke only for himself and not for the government.

It is a habit that ministers have only the premier speaks for the government. At the same time, those on the inside at Ottawa know that the sentiments of the government are those of Mr. Cramer. They have been talking about it since last fall and there has been so far no division of cabinet opinion against the proposal. Mr. Cramer broke the ice, but voiced only his own views officially, he voiced, unofficially, the views of his colleagues.

Saskatchewan members will now throw the question into parliament with a direct resolution calling for fixed price. The outlook is not promising.

Rheumatism

In Back and Leg

Sometimes So Bad Could Not Walk—Pain Almost Unbearable—Found a Cure After Five Years of Suffering

Sanguo, Alta, April 8.—Here is more proof that the way to get rid of pain is by cleansing the system of poisonous impurities.

When the kidneys fail to do their work of purifying the blood, there is sure to be pain and suffering. Lumbago, rheumatism, headache, backache, pains in the limbs, are the natural result. Mr. Robinson found that when he got the action of his kidneys corrected by use of Dr. Chase's Kidney-Liver Pills, that the pains and aches disappeared. Cure was effected eight years ago, so he has been called lasting.

Mr. J. A. Robinson, Sanguo, Alta, writes:

"I suffered from kidney trouble for years. I also had rheumatism in my back and down one leg, and sometimes I could not walk. The rheumatism would settle in my hip or the calf of my leg and the pain was most excruciating. I tried the different doctors, but it was of no avail. I suffered in this way for about five years. Then Dr. Chase's Kidney-Liver Pills were recommended to me, and before I had used the first box I was completely cured. It is now eight years since I first got the pills, and I am the best of health today. I always keep Dr. Chase's Kidney-Liver Pills handy, and use them occasionally." (Mr. D. T. Kuhn, Commissioner of State of California, writes to Sanguo, Alta, is personally known to me, and I have every reason to believe him to be a man of his word under these and all other circumstances.)

Dr. Chase's Kidney-Liver Pills, 50c a box. Sold by all druggists, or, Edmanham, Bates & Co., Limited, Toronto. Do not be misled by cheap imitations or adulterations, for they only disappoint.

The German Whine Over Peace Terms

Mons Welcomes Canadians

Paris. — The municipal council of Mons gave an official reception to General Lemaire, commander of the Third Canadian Division, which formed part of the first army which liberated Mons on November 11.

French Post Abolished

Paris.—President Poincaré, acting on Captain André Tardieu's suggestion, has signed a decree abolishing the post of French high commissioner at Washington on April 1.

Welmar. — Speaking in the national assembly, Philipp Scheidemann, the German chancellor, said semi and non-official reports were increasing that fresh aggravations in the peace conditions are expected to be announced that unprecedented sums in compensation are to be imposed; that wide stretches of purely German territory are to be taken and that crushing restrictions are to be imposed in financial and military matters.

Assuredly a large part of these alleged conditions are invented, the chancellor continued, "so that by repetition, they will accustom us to these unheard of demands and the final conditions may seem almost bearable to us. They are invented in order to create an atmosphere which will suffice to protect even against a peace of violence. Our peoples, which were ill-treated by the armistice more cruelly than by the war, recognize the method. A cry and a Chauvinist nature, but of the deepest despair which appeals to the highest there is—to the conference of humanity—is going up throughout Germany."

Herr Scheidemann said the protests against the alleged conditions were due to patriotic tears. The government knew this loyalty to the empire was one of the most valuable possessions entrusted to its control and would not permit it to be treacherous upon at home or abroad. The chancellor appealed to the people to stand together, advised by the "so-called radicals of the left have no right to protest against a period of oppression for we are responsible under the treaties of Brest-Litovsk and Bucharest."

Declaring that Great Britain had rejected a proposal to establish an international tribunal to investigate responsibility for the war, Herr Scheidemann said:

"Even if Germany were responsible for all the crimes she is accused of, has she thereby lost the right to protest against others which will throw her in."

"She was worse than Brest-Litovsk because Spa shows that it learned nothing from Brest-Litovsk."

Hungary is Warned

Mere Socialist Government Will Not Satisfy Autocrat of Red Russia

Copenhagen. — Premier Lénine, of the Russian Soviet government, sent a wireless dispatch to Bela Kun, the Hungarian minister of foreign affairs, asking for guarantees that the new Hungarian government is really communist and not merely socialist. Lénine warns Kun against imitating "our Russian tactics in detail."

In a message, Lénine says: "Owing to the peculiar circumstances, I am quite certain it would be a mistake for the Hungarian revolution to imitate our Russian tactics in detail. I must warn you against this mistake."

Vote to Keep Rhine Territory

Meetings of Protest in Germany Against "Enslaving Peace"

Paris. — The Prussian national assembly has voted unanimously against the relinquishment by Germany of any of the Rhine territory, especially the Saar basin, according to German dispatches reaching here. The voters also told of meetings of protest multiplying in all parts of Germany against what is called an "enslaving peace." According to the press, the representatives of these manifestations are being organized by the government through Count von Brockdorff-Rantzau, the foreign secretary.

War Shows Financial Strength of Britain

Paris. — Persistent rumors that all Europe is on the verge of a financial collapse are not justified by the facts, a prominent United States financial expert who has been engaged for many months in studying the problems facing the peace conference, said in a statement recently.

Conditions were serious, he added, but not panicky, and will doubtless be relieved greatly when peace is signed, which the expert envisaged. He predicted that England will be stronger within a year than ever before because of her unusual commercial enterprise and the courage with which she meets her debts by taxation.

Great Britain, with a war debt of \$400,000,000, the financier added, is in a situation comparing favorably with her debt and per capita wealth at the conclusion of the Napoleonic wars. The United States Great Britain between \$2,000,000,000 and \$3,000,000,000. The financier stated that only about four billions of the twenty billions of dollars of war debt of England before the war had been disposed of.
